

Presenting the Assignment in Different Formats

#01

Offer Assignments in Multiple Formats

- **Textual Descriptions:** Briefly explain the assignment requirements in a written format
- **Audio Recordings:** Provide an audio explanation of the assignment, beneficial for auditory learners or those with reading difficulties
- **Video Explanations:** Create a video that visually explains the assignment requirements, making it more engaging and accessible

#02

Use Varied Formats for Assignment Materials

- **Text, Audio, Images, and Videos:** Use a mix of these formats to present the assignment materials
- **Interactive Elements:** Incorporate interactive timelines, primary source images, and digital story maps to illustrate assignment expectations
- **Digital Tools:** Leverage tools such as Padlet, Moodle, or H5P to present assignment prompts in an engaging way

#03

Support Accessibility

- **Accessible Document**
Formats: Use formats like Word or PDF with built-in accessibility features
- **Alternative Text for Images:** Provide descriptive text for images and diagrams, ensuring they are readable by screen readers
- **Transcripts and Captions:** Provide transcripts for audio materials and captions for videos to support students who are deaf or hard of hearing
