2020-10-21T19:17:34Z	Functionality	Small, light weight	Yes (just a few typos)	3	Would you consider a mouse that can be used interchangeably with both hands?					1466df7a-b9b3-498f-af02-6188e7a0ca3		2020-10-21T19:17:34Z	2020-10-21T19:17:34Z	
2020-10-22T02:32:33Z	Increase efficiency	Wireless capabilities and the two button feature with grooving for the index and middle finger...		4						2e28a190-4f52-4415-45a0-781652c0462e		2020-10-22T02:32:33Z	2020-10-22T02:32:33Z	
2020-10-21T18:15:15Z	comfort for long hours	cheap, comfortable, simple functionality	very clear	3	I work for long hours and it would be nice to not get fatigued as quickly as I do.					3113e9d6-76c6-462a-8ec9-026abfce27c4		2020-10-21T18:15:15Z	2020-10-21T18:15:15Z	
2020-10-20T19:03:05Z					navigation feedback cont... I wished there were summaries of your research found on each of the pages (statistics, specifics) instead of linking back to your blog posts. REALLY GREAT intro video, appeals to users and super high production quality. For design work in photoshop, illustrator and indesign (prefer using a mouse and keyboard shortcuts over a track pad, I honestly really enjoy the Apple Magic Mouse, as it is almost like a mini track pad with the same functions as a mouse. It is super easy and comfortable to scroll up and down through long documents and does not require much effort. For the little video and audio editing experience I have it is really necessary for me to have the ability to scroll left to right, or right to left, along tracks which is integrated into the Magic Mouse. Left and right clicks function as normal and do not require too much force or pressure which I like, but still enough to make you feel like you're clicking. My only complaint is that when working long hours, because the mouse is so shallow and flat, it puts a LOT of pressure on the base of my palm. I use a mousepad but it does not have extra padding. (this is Camille how if you need more info)	smooth real-time pointer movement, does not too much force when clicking	functionality	was easy to navigate	361081a-05ab-4996-e48e-499429af9e11		2020-10-20T19:03:05Z	2020-10-20T19:03:05Z		
2020-10-21T01:39:29Z					I really like everything about your research, it was clear and the video was top notch. I would recommend focusing more on increasing comfort. For comfort may be looking at the different sizes of hands because it varies in terms of comfort. Probably making the mouse itself as a padded material base or having the mouse specially padded stand. (it could be combining one mouse with a padded stand that would be super cool). Overall love your presentation and can not wait to see the finale :D	same qualification of Logitech ma mouse - comfort	I would go for increasing comfort	it was super clear and navigation was perfect	4aa8f9d2-9d7e-4cc2-bef7-9ced0033aa71		2020-10-21T01:39:29Z	2020-10-21T01:39:29Z		
2020-10-21T18:54:24Z	hybrid of functionality and comfort	cheap, low profile, something I can use for long hours	extremely	3						60b71a20-6e43-42d9-9467-957924ee5d82		2020-10-21T18:54:24Z	2020-10-21T18:54:24Z

2020-10-20T09:07:00Z					5	it looks excellent	comfort, sleek ,small, functional	efficiency	very clear and concise	8ce11161-b0e1-4460-b09f-3f519307739c		2020-10-20T09:07:00Z	2020-10-22T04:01:47Z	
2020-10-20T18:45:56Z						The video was awesome and really suits the target market. Editing and production takes a long time but maybe more or all of your content could be videos? May be worth asking Victor and see their thoughts on that. If your time allows for making them of course. -Mike	Inexpensive, functional with programmable buttons	functionality and efficiency. These may not be exclusive of each other though. A combo of all 3!	Yes, the video was awesome!	e9d0235a-bd84-482a-d0ff-40322731c0bd		2020-10-20T18:45:56Z	2020-10-20T18:45:56Z	
2020-10-22T00:11:03Z	Increased Functionality	Responsive yet silent clicks, sensitivity settings and a comparable form factor for my particular hand size	The format and relaying of information is clear and concise, overall it was well thought out and clear to convey your initial stages in the design process	3						410cf1b-6f60-4acd-a282-e745f9f69f311		2020-10-22T00:11:03Z	2020-10-22T00:11:03Z
